

Ross INSTA

Alcohol based spray sanitiser

Ross INSTA is a general purpose disinfectant. INSTA is ready-to-use spray disinfectant for use in the food, beverage and dairy industries. Effective against most vegetative forms of micro-organisms excluding bacterial spores but includes Gram positive and Gram negative bacteria and yeasts.

Ross INSTA is an alcohol based disinfectant containing sequestrants and quaternary ammoniums. It is an ideal product for surfaces where the massive use of water diluted products is impossible or not recommended.

INSTA can be used on surfaces in contact with foodstuffs food and evaporates quickly with leaving traces or residues. It is recommended for high risk, conveyor disinfection, Filling machines and other equipment after a fast contact time. INSTA is suitable for use with a spray applicator or using a dry cloth.

Key Benefits

- Ready for use
- Ideal for humid areas
- Broad spectrum activity
- Disinfects even with reduced contact time
- Simple application

Application Method

Use INSTA neat, safe to use on food contact surfaces as a no rinse sanitiser.

- Preclean surface to remove gross soiling.
- Spray INSTA neat onto surface.
- Leave to dry, rinsing is not necessary unless legally specified.

For more details, please contact your local Buzil Rossari representative.

Ross INSTA

Alcohol based spray sanitiser

Technical Data

Appearance	Clear colorless liquid
pH Value	7 ± 0.5
Density at 20°C	0.96

Compatibility

Product can be used on most materials found in food industries if the product is applied according to concentration and temperature recommendations. It is recommended to carry out tests for other materials before prolonged use.

Storage & Handling

All safety information on the handling and use of this product is provided in the Safety Data Sheet which can be consulted and / or obtained from our representatives

Keep this product in the original packaging or, where possible, in a tank of bulk reception, protected from extreme temperatures.

Declaration: Technical figures given in this data sheet are typical values based on internal laboratory measurements, following appropriate International Standard Methods, and should not be taken as a warranty or representation. It is the end user's responsibility to make sure that the product matches its requirements.

For more information on this product, please contact your local Buzil Rossari representative.

Ross INSTA

Alcohol based spray sanitiser

Food Grade Quality Certificate

Application in food & beverage processing facilities

Here we confirm that, Ross INSTA, if used according to the instructions in the product information sheet is suitable for the open plant cleaning in Beverage, Brewing, Dairy & Food Processing facilities and not to adulterate the product in any manner during the use.

Essential condition is a thorough rinsing with clear portable water of surfaces intended to get in direct contact with foodstuff.

The remaining residuals that may contaminate or adulterate food contacting cleaned surfaces are expected to be negligible, following a potable water rinse. Therefore, the potential ingestion of residues resulting from the approved use of these types of products does not represent a significant health hazard after our assessment of the products as suitable for use under the intended conditions.

Thanking you,

Yours faithfully,

For Rossari Biotech Ltd.

Please note that this is not a regulatory assessment and should not be construed as an endorsement of regulatory compliance.

MATERIAL SAFETY DATA SHEET

according to REGULATION (EU) No 453/2010, annex I

2. Hazards identification

Classification :

Risk phrases: Hazards for man and environment

R 10 - Flammable.

R 36 - Irritating to eyes.

R 67 - Vapours may cause drowsiness and dizziness.

Classification system : The classification complies with current EC regulations on dangerous substances and preparations.

3. Composition / information on ingredients

Chemical characterization

Description : Mixture in water of non-dangerous ingredients and substances listed below.

Hazardous ingredients :

MAJOR/HAZARDOUS INGREDIENTS NAME	CAS NUMBER	APPROX. PERCENTAGE
Propan-2-ol	67-63-0	≥ 30%

4. First aid measures

General information : Remove contaminated clothing immediately.

Inhalation : In case of unconsciousness bring patient in to stable position for transport.

Skin contact : Wash skin immediately and thoroughly with water. Remove contaminated clothing. Obtain medical attention if symptoms develop.

Eye contact : Wash immediately with copious amount of water and obtain medical attention.

Ingestion : Remove material from mouth. Drink 1-2 glasses of water (or milk) and obtain medical attention without delay.

5. Firefighting measures

Suitable extinguishing media: CO₂, extinguishing powder or water jet. Fight larger fires with water jet or alcohol resistant foam.

Protective equipment: No special measures required

MATERIAL SAFETY DATA SHEET

according to REGULATION (EU) No 453/2010, annex I

Ross INSTA

Date of issue: 08.06.2018

Page 3 of 6

6. Accidental release measures

Protection of personnel : Wear suitable protective clothing, gloves and eye/face protection.

Environmental precautions : Dilute with plenty of water.

Method of disposal : Hose away with plenty of water diluting to at least 1% w/v (10g/liter) unless this would contaminate a water course or vegetation, in which case either collect, dilute as earlier and pour down wastewater drain (foul sewer) or absorb onto dry sand or similar material and dispose of to a licensed management company. Use a neutralizing agent.

7. Handling and storage

Information for safe handling : Ensure good ventilation / exhaustion at the workplace.

Prevent formation of aerosols.

Information about protection against explosions and fires : Keep ignition sources away - Do not smoke. Protect against electrostatic charges.

Requirements for storage rooms and containers : According to local legislation.

Storage in one common storage facility : According to local legislation.

8. Exposure controls / personal protection

Additional information about design of technical systems : No further data; see section 7.

Components with limit values that require monitoring at the workplace :

Propan-2-ol (15-30%) (CAS 67-63-0) OES (Great Britain) Short-term value:

Short-term value: 1250 mg/m³, 500 ppm

Long-term value: 999 mg/m³, 400 ppm

Additional information : The lists that were valid during the compilation were used as basis.

Personal Protection equipment :

General protective and hygienic measures : Keep away from foodstuffs, beverages and food. Take off immediately all contaminated clothing. Wash hands during breaks and at the end of work. Avoid contact with the eyes and skin. Do not inhale gases / fumes / aerosols. Avoid contact with the eyes and skin.

Breathing equipment : Personal protection is not normally required. However, inhalation of dust, vapour or aerosol should be avoided.

Protection of hands : Rinse and dry hands after use. For prolonged contact protection for the skin may be necessary.

Eye protection : Safety glasses are not normally required. However, their use is recommended in those cases where handling the undiluted product involves a risk of splashing.

9. Physical and chemical properties

Appearance:	Clear Liquid
Odour:	Characteristic
pH-value(1%):	7 ± 1
Melting point / range:	ND
Boiling point / range:	ND
Density at 20°C :	0.96 gm/cm ³
Solubility in water:	Miscible in water
Viscosity (25 °C):	ND

10. Stability and reactivity

Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.

Dangerous reactions: No dangerous reactions known.

Hazardous decomposition products: No dangerous decomposition products.

11. Toxicological information

Acute toxicity :

LD50 (oral) : Based on the toxicological classification the Ld50 (oral) is estimated to be >2000 mg/kg. This value is of no practical significance due to the corrosive nature of the product.

Primary irritant effect

Skin contact : Unlikely to be irritant in normal use.

Eye contact : Causes irritation

Inhalation : Narcotic if high concentrations of vapour inhaled. Causes Irritation

Ingestion : Causes irritation.

Additional toxicological information: EC Classification: Irritant.

12. Ecological information

General Notes: When used for its intended purpose, this product should not cause adverse effects in the environment.

MATERIAL SAFETY DATA SHEET

13. Disposal considerations

Product Recommendation: Must not be disposed of with domestic waste. Do not allow undiluted product to reach sewage system.

European waste catalogue:

16 03 05 Organic wastes containing dangerous substances

Uncleaned Packaging Recommendation : Dispose of observing official regulations.

Recommended cleaning agent : Water, if necessary with cleaning agent.

14. Transport information

Land transport ADR/RID (cross-border)

ADR/RID Class : 3 Flammable liquids

Kemler number : 30

UN-Number : 1987

Packaging Group : III

Label : 3

Proper Shipping Name: 1987 ALCOHOLS, N.O.S. (ISOPROPANOL (ISOPROPYL ALCOHOL))

Maritime transport IMDG

IMDG Class : 3

Transport/ Additional information: Transport regulations include special provisions for certain classes of dangerous goods packed in limited quantities.

15. Regulatory information

Classification according to EC guidelines : The product has been classified and labeled in accordance with current EC Directives.

Symbol and hazard designation of product:

Risk phrases :

10 Flammable.

36 Irritating to eyes.

67 Vapours may cause drowsiness and dizziness.

Safety phrases :

23 Do not breathe spray.

26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

51 Use only in well-ventilated areas.

Further indications on the label: Rinse and dry hands after use. For prolonged contact protection for the skin may be necessary.
