

SmartFoam NEUTRA

General purpose neutral foam cleaner

SmartFoam NEUTRA is concentrated foam cleaner contains organic sequestering agents and a blend of high foaming surfactants/wetting agents for the general-purpose cleaning in Beverage, Dairy and Food Processing industries.

Its balanced formulation of surfactants and mild alkalis particularly effective against the soils found in meat and poultry processors.

Always rinse surfaces thoroughly after use (within 1 hour). The product is recommended for cleaning floors, walls, cutting tables, conveyors and other processing equipment.

Key Benefits

- Effective cleaner on all types of food soiling
- Suitable for use in hard water
- Inhibited formulation for use on soft metals
- Free rinsing
- Can be used manually or with spray machines

Technical Data

Appearance	Clear, Pale Yellow Liquid
pH (10% Solution)	7-8.5
Odor	Characteristic
Density at 25°C	1.014
Solid Contents	20-24%

Application Method

Use product at concentrations between 0.5-2% v/v depending on the type and degree of soiling.

Product should be rinsed thoroughly after use, in order to remove all residues of surfaces in contact with foodstuffs. For more details, please contact your local Buzil Rossari representative.

SmartFoam NEUTRA

General purpose neutral foam cleaner

Material Capability

Product contains an inhibitor that makes it suitable for use on materials commonly found in the processed food industry, including soft metals such as aluminium, when applied at the recommended concentration and temperature. In the event of uncertainty it is advisable to evaluate individual materials before any prolonged use.

Storage & Handling

All safety information on the handling and use of this product is provided in the Safety Data Sheet which can be consulted and / or obtained from our representatives

Keep this product in the original packaging or, where possible, in a tank of bulk reception, protected from extreme temperatures.

Declaration: Technical figures given in this data sheet are typical values based on internal laboratory measurements, following appropriate International Standard Methods, and should not be taken as a warranty or representation. It is the end user's responsibility to make sure that the product matches its requirements.

SmartFoam NEUTRA

General purpose neutral foam cleaner

Food Grade Quality Certificate

Application in food & beverage processing facilities

Here we confirm that, SmartFoam NEUTRA, if used according to the instructions in the product information sheet, product is suitable for the open plant cleaning in Beverage, Brewing, Dairy & Food Processing facilities and not to adulterate the food product in any manner during its use.

Essential condition is a thorough rinsing with clear portable water of surfaces intended to get in direct contact with foodstuff.

The remaining residuals that may contaminate or adulterate food contacting cleaned surfaces are expected to be negligible, following a potable water rinse. Therefore, the potential ingestion of residues resulting from the approved use of these types of products does not represent a significant health hazard after our assessment of the products as suitable for use under the intended conditions.

Thanking you,

Yours faithfully,

For Rossari Biotech Ltd.

Please note that this is not a regulatory assessment and should not be construed as an endorsement of regulatory compliance.

MATERIAL SAFETY DATA SHEET

according to REGULATION (EU) No 453/2010, annex I

SmartFoam NEUTRA

1. Identification of the mixture and of the company / undertaking

1.1. Product identifier

SmartFoam NEUTRA

1.2. Relevant identified uses of the mixture and uses advised against

Professional cleaning / maintenance product for food & beverage industries.

1.3. Details of the supplier of the safety data sheet

Manufacturer:

Manufactured under licence from buzil
ROSSARI BIOTECH LIMITED
Plot No. 10 & 11, Survey No.90/1/10 & 90/1/11/1,
Kumbharwadi, Village Naroli
Silvassa-396235
Dadra and Nagar Haveli (UT)
India

2. Hazards identification

2.1. Classification of the mixture

Hazards for man and the environment :

R 41 - Irritating to eyes

Classification system : The classification complies with current EC regulations on dangerous substances and preparations..

2.2. Label elements (acc. to 1999/45/EC)

Classification system : The classification complies with current EC regulations on dangerous substances and preparations.

2.3. Other hazards

The product does not contain substances which are classified as persistent, bioaccumulative and toxic (PBT) or very persistent and very bioaccumulative (vPvB) according to 1907/2006/EG annex XII.

Foam formation after vomiting bears risk of suffocation.

3. Composition / information on ingredients

Chemical characterization

Description : Mixture in water of non-dangerous ingredients and substances listed below.

Ingredients :

MAJOR/HAZARDOUS INGREDIENTS NAME	CAS NUMBER	ACUTE TOXICITY (LD50 Oral - Rat)	APPROX. %
Sodium Hydroxide	1310-73-2	325 mg/kg bw (rabbit)	< 5%
Anionic surfactant	90194-45-9	ND	5-15%

4. First aid measures

Inhalation :	Remove from the source. Seek medical attention if effects persist.
Skin contact :	Wash thoroughly.
Eye contact :	Rinse immediately with copious amounts of water, holding the eyelids open and obtain medical attention.
Ingestion :	Remove product from mouth, give the casualty a small quantity of water to drink. Do not induce vomiting.

5. Firefighting measures

Flammability :	Not flammable.
Suitable extinguishing media:	CO ₂ , extinguishing powder, foam or water jet. May evolve toxic fumes if involved in a fire.
Protective equipment:	Self contained breathing apparatus.

6. Accidental release measures

Protection of personnel :	Wear suitable protective clothing including gloves and eye/face protection.
Method of disposal :	Hose away with plenty of water diluting to at least 1%w/v (10g/litre) unless this would contaminate a water course or vegetation, in which case either collect, dilute as earlier and pour down wastewater drain (foul sewer) or absorb onto dry sand or similar material and dispose of to a licensed waste management company.

7. Handling and storage

Handling (see also sections 8 and 15)

Information for safe handling : Avoid contact with skin and eyes. Rinse and dry hands after use. For prolonged contact protection of the hands may be necessary. Do not mix with any other chemicals other than advised.

Requirements for storage rooms and containers : Store in original closed containers in a cool place.

8. Exposure controls / personal protection

Personal Protection equipment's

Breathing equipment :	Personal protection is not normally required unless a risk assessment indicates the need for it.
Protection of hands :	For prolonged contact, the use of rubber gloves resistant to detergents is recommended.
Eye protection :	When handling neat product, wear eye/face protection to prEN 166 3 (chemical liquids).
Skin protection :	Personal protection is not normally required unless a risk assessment indicates the need for it

9. Physical and chemical properties

Appearance:	Light yellow liquid
Odour:	Characteristic
pH-value:	7-8.5
Melting point:	ND
Boiling point:	ND
Density (25°C):	1.014 gm/cm ³
Solubility in water:	Miscible in water
Viscosity (25 °C):	ND

10. Stability and reactivity

Thermal decomposition / conditions to be avoided : No decomposition if used according to specifications.

Dangerous reactions : None

Hazardous decomposition products : None

11. Toxicological information

Acute toxicity: REFER SEC. 3

Primary irritant effect:

Skin contact : Strong irritant with the danger of severe eye injury

Eye contact : Unlikely to be irritant in normal use

Inhalation : Unlikely to be irritant in normal use

Ingestion : Unlikely to be irritant in normal use

12. Ecological information

Notes: Ingredients according to EC 89/542:

15% to 30%: Anionic surfactants. Also contains preservatives.

The surfactants used in this product are biodegradable in line with the requirements of EC Directives 73/404/EEC, and 73/405/EEC and their subsequent amendments.

13. Disposal considerations

This product does not contain any prescribed substance under the Environmental Protection Act (Prescribed processes and Substances) Regulation 1991 but is classified as special waste under the Control of Substances (Special Waste) regulations 1996.

For small quantities wear suitable gloves and eye/face protection. Dilute with water to at least 1% w/v (10 g/litre) and pour down a wastewater drain (foul sewer).

Uncleaned Packagings Recommendation : Rinse out containers at least twice and recycle if facilities exist or dispose of as commercial waste. For larger quantities contact a licensed waste management company.

14. Transport information

EEC Regulation :	Not regulated
IMDG/UN :	Not regulated
RID / ADR :	Not regulated
ICAO /IATA :	Not regulated

15. Regulatory information

Classification according to EC guidelines : The product has been classified and labeled in accordance with current EC Directives.

Symbol and hazard designation of product: HARMFUL
